

Introduction

This is the first paragraph of the introduction. Abstracts will be printed on the conference publication and online exactly as they are submitted. EAGE staff will not edit or retype the copy. The font for this template is 11pt Times New Roman. The section headings are bold. The paragraphs are justified and separated by a blank line. Your abstract should be 4 pages long including all figures and references (Please do not count the cover page).

TITLE, AUTHORS AND SUMMARY MUST NOT BE INCLUDED IN THESE FOUR(4) PAGES! This information is provided on a cover page, automatically generated from the information you provide on the on-line submission form.

The lay-out of the references should be consistent with the style guide for references in the First Break guidance to authors. Please ensure every citation has a reference and vice versa. As a reference, we placed the First Break example references in the correct format at the end of this document.

If you want to use EAGE's First Break bibliography style file and supply your own bibliography file, put the `\bibliography{<yourbibfile>}` just before the `\end{document}`-command. When you prefer to put bibliography entries in the main file, please use:

```
\begin{thebibliography}{6pt}
  \bibitem[<reference>]{<cite>} Author, year, title, etc.
\end{thebibliography}
```

Here `<cite>` is the unique key to use with your `\cite`-command, and `<reference>` is the text that replaces this cite, e.g., "Andersen and Doyle(1990)". However, this method might initiate a warning.

Method and/or Theory

Additional instructions for composition are:

- Please write your abstract in English.
- Authors are responsible for sizing and positioning their illustrations.
- Figures can be in black and white or colour (Include at least one figure).
- Embed into the text of the paper figures, equations, charts, graphics, etc.
- Compile your document with: DVI → PS → PDF or DVI → PDF.

Your abstract **MUST** be 4 pages long and **MUST** include at least one figure. Font point sizes and line spacing should not vary from this template. The deadline for submitting your extended abstract is 15 January 2013. **NO EXCEPTIONS!**

Examples (Optional)

If you have a chart, graphic, equation, etc., you will need to embed them in the document, which can be done in the usual manner. An example of a figure is put on the next page, which we included in L^AT_EX by:

```
\begin{figure}[!htb]
  \centering
  \includegraphics[width=0.62\textwidth]{lambare.eps}
  \caption{...}
\end{figure}
```

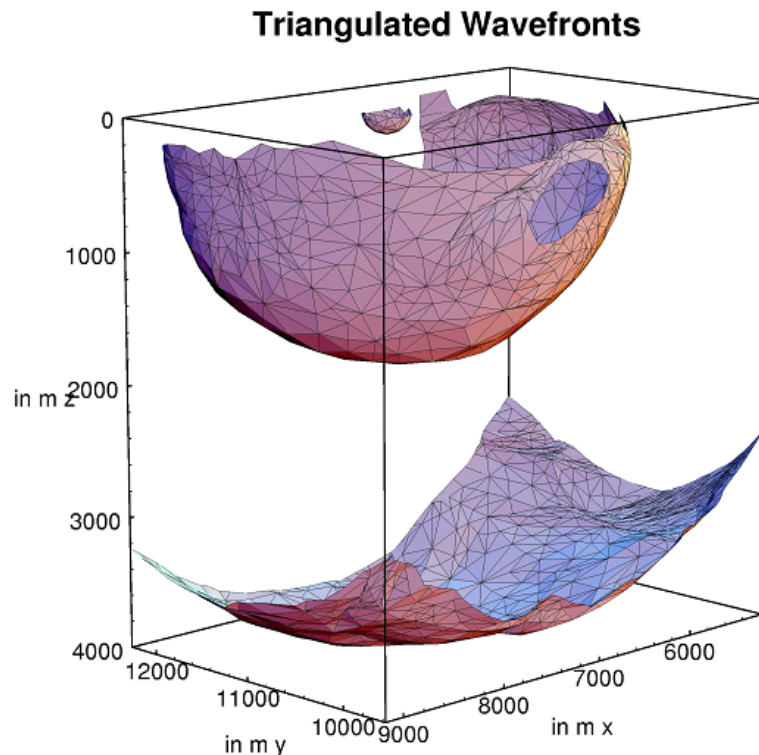

Figure 1 This is an example figure imported from *eps* (courtesy of Gilles Lambaré). Figures should be included in the usual way, where the picture should have an Encapsulated Postscript format. Number the figures sequentially, according to their appearance in the text, and check that each figure is cited in the text. Supply a short **caption** for each figure; more detailed discussion of the figure can be reserved for the text. In this template figure caption are 11pt italic Times New Roman. Further information about the use of figure captions and figure numbering can be found in the First Break guidance to authors.

Results (Optional)

This is the first paragraph of the result section.

Conclusions

This is the first paragraph of the conclusions.

Acknowledgements (Optional)

This is the first paragraph of the acknowledgements.
